(2) Reasons for Revision

For the Consolidated Financial Forecast for the six months ending June 30, 2020, raising the JPY 10 Billion private REIT and thus recording the sales of the property as revenue, initially scheduled to take place in June, has moved back to July, mainly due to the spread of COVID-19.

Aside from the above, business is proceeding as planned, therefore there are no revisions for the consolidated financial forecast for FY 2020.

Note: The forecast written above is based on information available as of the disclosure date. Actual results may differ due to various reasons that occur in the future.
