To deal with the social issue of shortage of elderly care personnel in Japan, Shinoken has taken action in training the required personnel in Indonesia. We have entered partnerships with Universitas Ngudi Waluyo (UNW) in Nov, 2019 ([Press Release](#)) and with STIKES Bethesda Yakkum (SBY) in Oct, 2020 ([Press Release](#)), and the first team of 19 people arrived in Japan on Mar 18 this year. After finishing the designated quarantine period based on the guidelines of preventing the spread of COVID-19, they have moved in to the dormitory we have newly built ([Press Release](#)), and have been assigned to the elderly care facilities today. Their status of residence will be Specified Skilled Workers, based on the program of the Japanese government.

They were supposed to arrive in Japan a year ago, but travel restrictions due to the COVID-19 situation set back the schedule. During the period, the team was highly motivated and continued their on-line training and preparation, and this lead to them joining Shinoken this year.

This effort is broadcasted on an SDGs related television program.
